C S1440-103_COMPUTER SCIENCE I (FALL 2022)

Syllabus
Course catalog information

Semester: Fall 2022
Course name: Computer Science I
Course ID: CS 1440
Section number: 103
Credit hours: 3
Modality: face-to-face
Meeting days: Monday, Wednesday, Friday
Meeting time: 12:00pm to 12:50pm
Meeting location: 310 Anne Belk Hall

Course description: A first programming course using an object-oriented language. Emphasis is placed on problem-solving and appropriate programming standards. Topics include: classes, objects, data types, expressions, conditional statements, loops, strings, arrays, collections, debugging, inheritance, and polymorphism. Lecture three hours, laboratory two hours.

Course prerequisites/co-requisites: MAT 1025 or equivalent with a minimum grade of "C-" (1.7) or higher or satisfactory Calculus Readiness Test score.

Instructor information
Instructor name: Dr. Mark Hills
Instructor office: 312L Anne Belk Hall
Instructor phone: 828-262-7159
Instructor email: hillsmj@appstate.edu

Office hours: Monday 1:00pm - 3:00pm Tuesday 2:00pm - 4:00pm Wednesday 1:00pm - 3:00pm

Course objectives

Course Content
An introductory study of the fundamentals of Computer Science with emphasis on using the Object-Oriented programming paradigm to solve problems using the Java programming language.

Required materials and resources
We will be using the textbook: Starting Out with Java: Early Objects (6th Edition), Tony Gaddis, Pearson, 2018. A digital version of this book is available.

Grades
Grading
Your final grade will be calculated as described below.

<table>
<thead>
<tr>
<th>Category</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lab</td>
<td>30%</td>
</tr>
<tr>
<td>Homework</td>
<td>15%</td>
</tr>
<tr>
<td>Quizzes</td>
<td>10%</td>
</tr>
<tr>
<td>Midterm Exam</td>
<td>20%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>25%</td>
</tr>
</tbody>
</table>

** Among other requirements, you must earn a 60% or higher on the final exam to pass the course **

AsULearn rounds your grade and that rounding will be final.

CS 1440 as a Prerequisite
Per guidelines of the Department of Computer Science, you must earn an overall course grade of a C or higher in order to move on to CS 2440. A C - is not sufficient to advance to CS 2440. This course has both a lecture and a lab component and summarized below are the minimum requirements to pass the CS 1440 course.

- Minimum Passing Requirements Summarized:
  - C (73%) or higher in CS 1440 Lecture
  - C (73%) or higher in CS 1440 Lab
  - 60% or higher on CS 1440 Lecture Final Exam
  - 60% or higher on CS 1440 Lab Final Exam

### Letter | Percentage Range
---|---
D- | 60 - 62.99
F | < 60

### Assignment details

#### Labs
This course has a mandatory laboratory meeting each week. This weekly laboratory session provides hands-on experience with the concepts learned in lecture. Labs are an essential part of learning. There are teaching assistants available at the lab sessions that can help you and answer questions you may have about implementing Java code related to the lab assignments. There is a separate syllabus for the laboratory that covers information about lab sessions, policies, and grades. This syllabus can be found on the lab course AsULearn page. You must pass the lab in order to pass the lecture course. You must pass the lab with a 73% or higher overall and a 60% or higher on the lab final (see the section on Grading for more details). Your overall lab grade is worth 30% of your lecture grade and is factored in at the end of the semester. Please pay close attention to due dates.

#### Homework
There will be homework assignments. Homework assignments are to be completed on your own. These assignments will, most often, involve programming problems and can take several hours to complete which is why you have a week to work on them. Homework is worth 15% of your lecture grade. Please pay close attention to due dates.

#### Quizzes
There will be a short quiz based on nightly reading due before class time each day of lecture. You are to read the specified sections in the textbook and complete the quiz ahead of lecture. These quizzes are posted on AsULearn and open and close at specific times. Quizzes are worth 10% of your lecture grade. Please pay close attention to due dates.

#### Exams
There will be a midterm exam and a final exam in this course. Exams will be announced at least five days in advance and may be cumulative. Any student missing an exam for an unexcused absence will receive a zero on the exam. A student missing an exam for an excused absence, when the absence is known in advance, must make arrangements to take the exam early. Students missing an exam for an emergency, excused absence will be allowed to make up the exam within three days of returning from that emergency, excused absence after providing proof of the emergency. Failure to make up the exam within these three days will result in a zero for the exam. The exam weights can be found in the above Grading section of this document.

#### Final Exam
The final will be held in accordance with the final exam schedule as listed on the official university web page. Makeup finals will only be given in extreme circumstances, such as student hospitalization or death in the family, both of which must be reported through student services. The final will be given on the date and time specified by the registrar’s exam schedule web page. A link to the registrar’s final exam schedule web page is on the course AsULearn page. You must pass the lecture final exam with a score of 60% or higher in order to pass the course with the required grade to advance (other passing requirements must also be met and are summarized in the grading section).

#### Late Work
No late work will be accepted except under the most extreme circumstances.

### General course policies

#### Office Hours
I will hold office hours in-person. If I am with another student, please be patient and respectful to the other student by waiting your turn. There may be times throughout the semester when I must cancel or reschedule my office hours due to last minute meetings or appointments. I will make sure to announce these changes. If you cannot attend my scheduled office hours, you may email me for an appointment. You are always welcome to ask questions over email. Please be patient with me because it may take me more than 60 minutes to respond. I may not immediately answer emails sent after 5pm on weekdays or sent at any time on weekends.

#### Help Available
Visit the Student Learning Center website [https://studentlearningcenter.appstate.edu](https://studentlearningcenter.appstate.edu)
Public Labs
Anne Belk Hall, Rooms 309 and 311, are available to all Computer Science majors outside of scheduled class times and during normal building hours.

Attendance Policy
It is the policy of Appalachian State University that class attendance is an important part of a student’s educational experience. Students are expected to attend every meeting of their classes. However, I do understand that life happens. Attendance will be taken every lecture period by means of each student writing their name on an attendance sheet before leaving class. If you do not write your name on the attendance sheet, then you will be marked absent. If you miss more than five lectures without an acceptable excuse (described below), then you fail the course. It is your responsibility to make sure that you have been counted present for every day of class. You can check this using the Attendance link on the course AsULearn page. If you see a discrepancy, please email me with your name and the date and I will look into it. I will not be recording lecture sessions and materials will not necessarily be posted to the course page. It is up to you to attend lecture and take notes. If you are absent, I suggest asking a friend for their notes or attending my office hours. Absences may be excused, but require a note from a physician, another professor, or coach. I allow excused absences for school related activities and being sick enough to go to the doctor. If you are affected by COVID-19, you must contact the dean of students for documentation of your case. Another reason an absence may be excused is if the absence is discussed with me before the absence is to occur. Other reasons could be anything deemed beneficial to student learning. Some form of proof will be required for any excused absence. Unexcused absences are not free days. Unexcused absences are emergency days to cover other things that may happen to you such as being in court, having no internet connection, having device issues, feeling sick (but not sick enough to go to the clinic), etc. If you abuse your unexcused absences by taking days off and then you are absent a sixth time, even with a legitimate reason like having device issues or connectivity problems, you will fail the course. SIX OR MORE UNEXCUSED ABSENCES WILL RESULT IN AUTOMATIC FAILURE FOR THE COURSE. See the University policies on attendance here (https://academicaffairs.appstate.edu/sites/academicaffairs.appstate.edu/files/printable_pdf_of_the_attendance_policy.pdf).

Attention and Participation
You must be an agent in your learning experience by attending lecture and paying attention. Lecture materials will not necessarily be posted to the course AsULearn page. I will be using the textbook and associated materials heavily in this course. The text is an excellent resource and you should take advantage of it. I reserve the right to give pop-quizzes or surprise in-class assignments that are to be factored into your course quiz grade. Please be sure to attend lecture.

Email and Communications
I assume that students check their ASU email several times daily. If you check a different email address more frequently than your ASU address, then set your AppaNet account so that your email gets forwarded. I will hold you responsible for all information conveyed to you through email from either myself or other CS 1440 instructors (for lab). Any updates will be posted to the AsULearn Announcements forum. When an announcement is posted on AsULearn, you should also receive an email. Again, I expect you to check your official campus email with some regularity. However, if I inform you in class that an assignment will be posted, I expect you to check for that assignment online even without an email. Assignments will appear on the calendar on the course AsULearn page as well as being listed in the week it was assigned. I will announce assignments in lecture as well. Please check the Announcements regularly in the event that you are not receiving emails sent from the course AsULearn page. Please use proper email etiquette when emailing me (or any professor). Use your official AppState email and include your course number and section (or at least meeting time) in the subject line. As I am getting to know everyone in the beginning of the semester, I ask that you are sure to introduce yourself in every email. Please be respectful in your emails. I will not respond to emails that I feel are rude or lack proper etiquette. If you are unsure of how to write an email to a professor please use the template below.

Hello Professor Hills,

My name is (first name last name) and I am in your (section number or meeting time) section of CS 1440. (insert question or comment here)

Thank you,
(first name last name)

Accommodations for Students with Disabilities (quoted from Vice Provost)
Appalachian State University is committed to providing an inclusive experience, accessible learning environments and equal opportunity to individuals with disabilities in accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. Individuals needing reasonable accommodations should contact the Office of Disability Resources (828.262.3056 or odr.appstate.edu [https://odr.appstate.edu/]).

Religious Observance Policy
Students must be allowed a minimum of two excused absences each academic year for religious observances. Students are responsible for requesting excused absences for religious observances required by the faith of a student. Except in extraordinary circumstances, student requests for excused absences for religious observances must be submitted to instructors in writing no later than three weeks after the first class day of the term. For the purposes of this policy, ASU defines the term religious observance to include religious holidays, holy days, or similar observances associated with a student’s faith that require absence from class.

https://asulearn.appstate.edu/mod/syllabus/view.php?id=2699417
Student Engagement
In its mission statement, Appalachian State University aims at providing undergraduate students a rigorous liberal education that emphasizes transferable skills and preparation for professional careers as well as maintaining a faculty whose members serve as excellent teachers and scholarly mentors for their students. Such rigor means that the foremost activity of Appalachian students is an intense engagement with their courses. In practical terms, students should expect to spend two to three hours of studying for every hour of class time. Hence, a fifteen-hour academic load might reasonably require between 30 and 45 hours per week of out-of-class work.

Academic Integrity Code (quoted from Vice Provost)
Introduction
Appalachian State University's Academic Integrity Code is designed to create an atmosphere of trust, respect, fairness, honesty, and responsibility. The Academic Integrity Code outlines "user-friendly" procedures and mechanisms for resolving alleged violations of academic integrity. The Academic Integrity Code is the result of cooperation among Appalachian’s faculty, students and administrators, and promotes a campus dialogue about academic integrity. All members of the Appalachian State University community are responsible for promoting an ethical learning environment.

The Academic Integrity Code
Students attending Appalachian State University agree to abide by the following Code:

- Students will not lie, cheat, or steal to gain academic advantage.
- Students will oppose every instance of academic dishonesty.

Students shall agree to abide by the Academic Integrity Code when submitting the admission application.

Extreme Circumstances
Extreme circumstances include extended illness documented by a doctor’s statement, death of a close relative, or other such problem. It does not include field trips, sporting events, other class work, oversleeping, bad hair days, problems with pets, working overtime, etc.

Class Cancellations
The university will send out an email should classes be cancelled for adverse weather. If I need to cancel class for any reason, I will notify you via email.

Special Days
Please reference the registrar's official 2022-2023 academic calendar for special days for the semester. Be aware of Add/Drop days and final exam periods. You can find the academic calendar here [Academic Calendar 2022-2023 PDF](https://registrar.appstate.edu/sites/registrar.appstate.edu/files/2022-2023_academic_calendar.pdf) or a pdf link can be found on the course AsULearn page. You can find the final exam schedule here [Final Exam Schedule 2022-2023 PDF](https://registrar.appstate.edu/sites/default/files/asu_fall_2022_exam_schedule_final.pdf) or a link can also be found on the course AsULearn page.

Covid
Appalachian State University has returned to pre-pandemic operations. Please see here for more information: [Covid Page](https://www.appstate.edu/go/coronavirus/). Masks are not required in classrooms, but you are welcome to wear a mask at your discretion.

Withdraw dates
Withdraw no academic penalty: Friday, August 26, 2022

Withdraw using a career drop: Wednesday, October 26, 2022

Learn more about how to withdraw in the [Withdrawal Policy](https://registrar.appstate.edu/resources/policies/academic-policies/withdrawal-policy).
